

Welcome to kidney care, your way

Evergreen Nephrology works with Renal Care Associates and your kidney doctor to help you get the best possible care. The care you want. The care that is all about you.

We start by developing a deeper understanding of your individual needs. Our program is built to help provide structure and support for you and your kidney doctor to help you live your best life possible.

You are the reason why Evergreen exists. Renal Care Associates and Evergreen work hand-in-hand to:

- Do our best to help you live a better, longer life
- Improve your experience living with kidney disease
- Provide care that aims to keep you out of the hospital

Meet your health care team

As part of our program, you have access to a team of professionals who work closely with your kidney doctor to help meet your health care needs. Your team may include:

- Your kidney doctor (nephrologist)
- Advanced practice provider (nurse practitioner or physician assistant)
- Social worker
- Nurse
- Dietitian
- Pharmacist
- Health coach

Everything we do is designed for you

We aim to put you at the center of everything we do.

Your care plan is just for you. Over the next several months, we'll reach out to work together on your personalized care plan. We take your total well-being into account — including mental and emotional health — to help you achieve your personal health care goals.

Your premium remains the same. You may still be responsible for certain cost-sharing amounts, like copays, when you receive health care services. However, the added benefits you receive from being part of our program will not increase your monthly premium payments.

Your voice matters. Our program is built to keep you at the center of your care. We may contact you to ask you about your experience or ask you to participate in a panel discussion. We look forward to hearing what you have to say!

We're here for you

We are passionate about kidney care and would be honored to serve you. If you have questions, call us at 309-676-8123, option 5.

The medical services made available through Evergreen Nephrology are provided by licensed healthcare providers practicing within a group of independently owned professional practices collectively known as "Evergreen Nephrology." These professional practices provide services in partnership with nephrology practices. Evergreen Nephrology, LLC and its affiliate companies do not themselves provide any physician, mental health or other healthcare provider services.
